HOP

by Itamar Harari

Clean, geometric lines and innovative form compositions define this series, blending aesthetics with ergonomic design. Striking the perfect balance between modern design and minimalism, the HOP Collection offers a versatile range of adaptable solutions for a variety of architectural needs.

A hallmark of the collection is the distinctive tap lever, celebrated for its sleek design and user-friendly functionality. The tilted angle of the lever and spout gives it a bold, dynamic look, and meticulous attention to detail ensures that HOP is perfectly suited to contemporary settings.

HOP

by Itamar Harari

The HOP 39 1101AGM standard lever basin mixer.

With its robust solid brass body, it promises enduring strength and stability. The mixer's Neoperl aerator spout provides a gentle, aerated water flow and minimises noise. It also includes water-saving features.

The mixer's standout single lever handle with a sleek circular hollow offers intuitive control over water flow and temperature. Powered by a high-end ceramic disc cartridge designed for an impressive 500,000 cycles, it ensures enduring performance.

The side-mounted handle adds to the mixer's convenience, making it a real statement piece for your bathroom.

Its deck-mount design, complete with pre-attached flexible supply lines, makes installation quick and easy for a single-hole configuration — perfect for modern bathrooms.

39 1101AGM

Single-lever Basin Mixer

The HOP 39 1102AGM comfort single lever basin mixer.

With its solid brass cylindrical body, it offers durability and a luxurious feel. The Neoperl aerator spout provides an aerated, smooth water flow that prevents splashes, and features a noise silencer to promote a tranquil bathroom ambience. The mixer is also designed to combat limescale and hard water, promoting water efficiency.

The mixer's single lever handle with an elegant circular hollow provides seamless control over the water flow and temperature. It is backed by a ceramic disc cartridge capable of withstanding 500,000 cycles, promising enduring performance.

The deck-mount design is ideal for single-hole installations, and the pre-attached flexible supply lines make setup easy.

The side handle design adds to the convenience—perfect for quick hand washes, cleaning elbows or rinsing hair.

39 1102AGM

Single-lever High Basin Mixer

The HOP 39 1101GM standard lever basin mixer is a prime example of modern design and functionality. Crafted from solid brass, its cylindrical body ensures durability and reliability. The Neoperl aerator spout provides a soft, aerated stream and incorporates noise reduction and water-saving technology.

The single lever handle features a circular hollowed design for precise control over the flow rate and temperature. It is equipped with the ceramic disc cartridge that lasts up to 500,000 cycles, guaranteeing long-lasting performance.

The deck-mount design with pre-attached flexible supply lines simplifies installation for a single-hole setup, making it ideal for contemporary bathrooms.

39 1101GM

Wall-mounted Basin Mixer

The Hop 39 1102GM comfort single lever basin mixer.

This mixer features a solid brass cylindrical body for durability and a premium feel. The Neoperl aerator spout provides a soft, aerated water flow to prevent splashing, and incorporates a noise silencer to create a peaceful bathroom environment. It also helps to reduce limescale and hard water build-up, making it water-efficient.

The circular hollowed design of the single lever handle allows for effortless control of the flow rate and temperature. It is equipped with a Sedal brand ceramic disc cartridge that endures 500,000 cycles, guaranteeing long-lasting performance.

The deck-mount design is suitable for single-hole installation and the pre-attached flexible supply lines simplify the installation process, making it convenient for washing hands, elbows and hair.

39 1102GM

Single-lever Kitchen Mixer

The Hop 39 1702GM single lever wall-mount basin mixer.

Featuring a solid brass cylindrical body, this mixer combines durability with a premium aesthetic. The Neoperl aerator spout provides a soft, aerated water flow to prevent splashing, and it includes a noise silencer to promote a peaceful environment. The mixer is also designed to reduce limescale and hard water build-up, making it an efficient choice in terms of water usage.

The circular hollowed single lever handle provides intuitive control over the flow rate and temperature. It is equipped with a ceramic disc cartridge that lasts up to 500,000 cycles to ensure long-lasting performance.

The wall-mounted design is ideal for concealed installations and the pre-attached flexible supply accessories simplify the setup process, making this a seamless addition to any modern bathroom.

39 1702GM

Single-lever Basin Mixer

The HOP 39 2101GM professional kitchen mixer features a pull-out spray for the ultimate in convenience. Its solid brass cylindrical body promises durability and a premium feel. The Neoperl aerator spout provides a soft, aerated stream to prevent splashing, and includes a noise silencer to help keep your kitchen quiet. It is also designed to reduce limescale and hard water build-up, making it water efficient.

The circular hollowed single lever handle provides seamless control over the flow rate and temperature. It is equipped with a ceramic disc cartridge that lasts up to 500,000 cycles to ensure long-lasting performance.

The deck-mount design is ideal for single-hole installations, and the pre-attached flexible supply lines simplify installation, making this a practical and stylish addition to any modern kitchen.

39 2101GM

Wall-mounted Basin Mixer

The HOP 39 3801GM free-standing bath filler with hand shower.

This elegant, floor-mounted fixture is constructed from solid brass and combines functionality with a sleek design. The hand shower attachment comes with a long, flexible hose for added convenience when rinsing and cleaning. A built-in diverter valve enables you to switch seamlessly between the tub filler spout and the hand shower. The hand shower features a Neoperl aerator that provides a soft, aerated stream, reducing noise and water waste.

The circular hollowed single lever handle provides intuitive control over the flow rate and temperature. It is equipped with a ceramic disc cartridge that endures 500,000 cycles to ensure long-lasting performance.

The floor-mount design is suitable for single-hole installation and comes with pre-attached flexible supply lines, making installation easy and perfect for adding luxury to your bathroom.

39 3801GM

Floor-standing Shower/
Bath Mixer

The HOP 39 3101GM single lever shower/bath mixer is a fusion of solid brass construction and modern design. This mixer features a Neoperl aerator spout that delivers soft, aerated water, reducing splashing and noise while conserving water. It is also effective in minimising limescale and hard water issues.

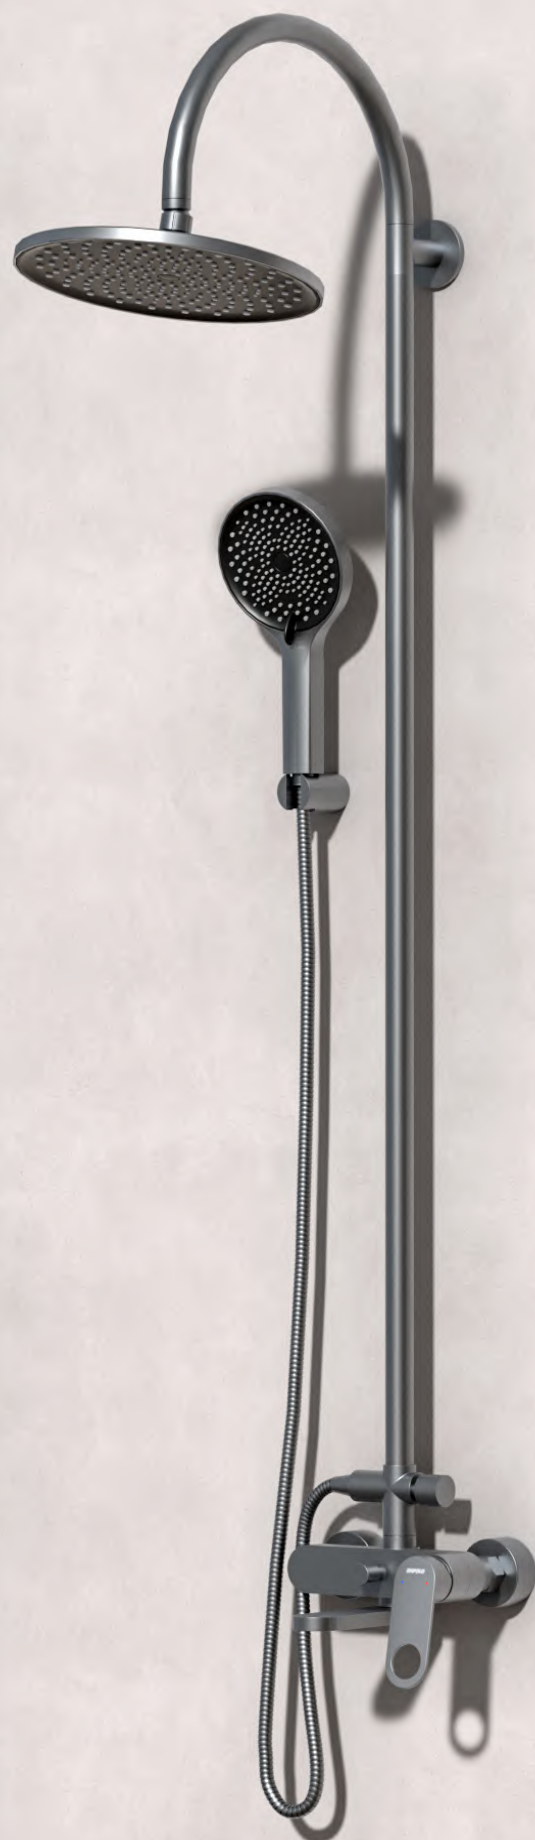

The circular, hollowed single lever handle provides effortless control over the water flow and temperature, enhancing your bathing experience. It is equipped with a premium ceramic disc cartridge that lasts up to 500,000 cycles, guaranteeing durability and reliability.

The wall-mount design is intended for two-hole installation and the pre-attached flexible supply lines make setup straightforward, offering a sleek, functional addition to your bathroom.

39 3101GM

Wall-mounted Shower/Bath Mixer

The HOP 39 3601GM shower/bath combination is a solid brass, wall-mounted shower set that redefines convenience and style. It includes both an overhead shower and a hand shower to provide a versatile bathing experience. The hand shower has a long, flexible hose that allows you to easily reach different areas of the tub, even when seated.

A built-in diverter valve lets you effortlessly switch between the overhead shower, the tub filler spout and the hand shower. The Neoperl aerator spout provides a soft, aerated stream to prevent splashing and includes a noise silencer. It also helps to reduce limescale and hard water build-up and is water-saving.

The single lever handle, with its circular hollowed design, gives you precise control over the flow rate and temperature. Backed by a ceramic disc cartridge that endures 500,000 cycles, it ensures long-lasting performance.

The wall-mount design is suitable for exposed installations and the pre-attached flexible supply lines make setup simple, offering durability and reliability for your bathroom.
