Duke Zhao, a senior creative designer. He has 15 years experience, including 13 years of sanitary product design. The sanitary product design includes the whole line of sanitary products (a series of hardware products, such as closets, bath cabinets, faucets, showers, bathtubs, hardware pendants, etc.). The sanitary industry is a huge integrated system, which ultimately serves the use experience of consumers as the benchmark. The grasp of every detail of sanitary products and the direction of putting them on the market will determine the value generated in the future, which requires us, as designers, to master all aspects of product knowledge. For the development and design of new products and the supporting and planning of existing products, he has accumulated certain experience and ability. He has personal opinions on the future development of the bathroom industry. He has a strong sense of innovation, cross-border integration, product planning and organizational capabilities.
