Duke Zhao

Senior designer, Product manager

IF design Award

Kapok design award

Reddot award

Duke Zhao, a senior creative designer. He has 15 years experience, including 13 years of sanitary product design. The sanitary product design includes the whole line of sanitary products (a series of hardware products, such as closets, bath cabinets, faucets, showers, bathtubs, hardware pendants, etc.). The sanitary industry is a huge integrated system, which ultimately serves the use experience of consumers as the benchmark. The grasp of every detail of sanitary products and the direction of putting them on the market will determine the value generated in the future, which requires us, as designers, to master all aspects of product knowledge. For the development and design of new products and the supporting and planning of existing products, he has accumulated certain experience and ability. He has personal opinions on the future development of the bathroom industry. He has a strong sense of innovation, cross-border integration, product planning and organizational capabilities.

MUKAAB

by Duke Zhao

Introducing a water tap that transcends the boundaries of traditional design, embodying the essence of a futuristic masterpiece. This innovative creation redefines the concept of functionality and aesthetics, seamlessly blending cutting-edge technology with a touch of ancient wisdom.

The tap's body is a testament to modern artistry, featuring a distinctive faceted design. Sharp, intersecting lines mimic the edges of a Rubik's cube, exuding an air of unparalleled stability and mystery. Each facet catches the light, creating a dynamic interplay of shadows that adds depth and dimension to the overall structure. This geometric form not only makes a bold visual statement but also serves as a symbol of precision and strength.

The handle, inspired by the indentations of armor, is a marvel of meticulous craftsmanship. Its compact yet ergonomic shape offers a comfortable grip, allowing for effortless control of water flow. The intricate detailing of the handle resembles the patterns found on ancient protective gear, paying homage to the ingenuity of past civilizations while embracing contemporary style.
