Tang Xiaoping is a senior bathroom product designer with more than 20 years of professional experience in sanitary ware design and R&D. He served as R&D Director and Design Director at AMMONS Bathroom, leading core product design and innovation.

He focuses on the design of faucets, showers, bathroom hardware and smart sanitary products, integrating functional innovation, aesthetic design and practical craftsmanship. Under his leadership, the team won many top international and domestic awards, including the Red Dot Design Award, iF Design Award, China Red Star Design Award and Kapok Design Award. He has developed hundreds of national patents for appearance, utility model and invention. He has long been committed to promoting the upgrading of China's sanitary ware industry from manufacturing to creation, and has achieved outstanding performance in product innovation, user experience optimization and sustainable design.

SQUARE

by Tang Xiao Ping

The SQUARE Series is the context of modern design, German design is often synonymous with rationality and precision. Yet true beauty arises not from cold geometric assemblage, but from the resonance forged with space through highly restrained lines. The EMPOLO Collection embodies this philosophy at its finest — distilling the grand narrative of architecture into tactile precision at your fingertips, turning every flow of water into an artistic performance of geometry and gravity. The Poetry of Geometry, Rhythm of Vertical Lines

This shower series outlines a sense of spatial order through a combination of pure cuboid structures and ultra-slim planes. Its signature hollow handle design breaks the heaviness of metal, allowing light and shadow to flow through freely.

Minimalist flat design with mirror polishing, delivering visual extensiveness reminiscent of architectural facades.

Concealed diverter knobs and thermostatic controls maintain an exceptionally smooth front profile while offering an intuitive user experience.

SQUARE

by Tang Xiao Ping

The SQUARE 26 1101 single lever mixer is both elegant and durable. Its solid brass cylindrical body ensures reliability, and the Neoperl aerator delivers a soft, aerated stream that reduces noise and limescale.

The broad, sword-shaped single lever handle allows precise control of the water's flow and temperature. With an Emporo ceramic cartridge built for 500,000 cycles, it guarantees long-lasting performance.

Designed for single-hole installation, it comes with pre-attached flexible supply lines to simplify setup.

Handle selection

26 1101

Single-lever Basin Mixer

The SQUARE 26 1103 single lever mixer combines sophistication with functionality. Crafted from premium brass, it features a sleek, cylindrical body and a broad, sword-styled handle that allows for precise control of the water's flow and temperature.

The Neoperl aerator provides a soft, aerated stream that reduces noise, limescale and water usage. It is equipped with a durable Empolo ceramic cartridge rated for 500,000 cycles to ensure long-lasting reliability.

With pre-attached flexible supply lines, it is deck-mounted for simplified installation in single-hole setups.

26 1103

Single-lever Basin Mixer

The SQUARE 26 1702 single lever wall-mount basin mixer. It features a solid brass, round body for durability. The Neoperl aerator provides a soft, aerated stream that prevents splashing and noise while reducing limescale, and the mixer is water-efficient.

The circular single lever handle allows easy control of the water flow and temperature. It uses an EMPOLO Select ceramic disc cartridge with a lifespan of up to 500,000 cycles. Designed for wall-mounted installation with concealed pipework, it includes flexible supply accessories for straightforward installation. It is ideal for both residential and commercial settings.

26 1702

Wall-mounted Basin Mixer

The SQUARE 26 2101 comfort single lever kitchen mixer combines elegance with utility. Its solid brass body and pull-down sprayer enhance its functionality.

The Neoperl aerator provides a soft, aerated stream and reduces noise, limescale and water waste. With its broad, sword-styled handle for easy flow and temperature control and its durable Empolo ceramic cartridge (with a lifespan of 500,000 cycles), it's a reliable choice.

Designed for simple single-hole installation, it is deck-mounted with pre-attached flexible supply lines, making it ideal for efficient and stylish kitchen operations.

26 2101

Single-lever Kitchen Mixer

The SQUARE 26 4101 single lever wall-mounted shower mixer. With its solid brass cylindrical body, this mixer is both durable and reliable. The Neoperl aerator creates a soft, aerated stream that prevents splashing and reduces noise and limescale and hard water buildup, ensuring efficient water usage.

The circular single lever handle allows for intuitive control of both the flow rate and the temperature. Powered by a tested EMPOLO Select ceramic disc cartridge with a lifespan of 500,000 cycles, this mixer guarantees long-lasting performance. Designed for wall-mount installation with pre-attached flexible supply lines, it simplifies setup for two-hole installations. It is ideal for both residential and commercial bathrooms.

26 4101

Single-lever Shower Mixer

The SQUARE 26 3101 single lever wall-mount shower/bath mixer with flow stopper. Its solid brass cylindrical body ensures durability. The Neoperl aerator creates a soft, aerated stream that prevents splashing and reduces noise. It also helps minimise limescale and hard water, and is water-efficient.

The single lever handle allows you to easily control the flow and temperature. The flow stopper lets you pause the water without adjusting the temperature. With an EMPOLO Select ceramic disc cartridge that lasts for 500,000 cycles, it is built to last. Designed for wall-mounted installation with pre-attached flexible supply lines, it simplifies two-hole setups.

26 3101

Single-lever Shower/Bath Mixer

The SQUARE 26 3601 single lever shower/bath combination. This solid brass wall-mounted set includes an overhead shower and a hand shower, the latter of which comes with a flexible hose for easy reach. The spout features a Neoperl aerator that provides a soft, aerated stream to reduce noise and limescale. A diverter valve allows you to switch seamlessly between the overhead shower, the spout and the hand shower.

Effortlessly control the flow and temperature with the single lever handle. The EMPOLO Select ceramic disc cartridge lasts for up to 500,000 cycles. Designed for exposed wall-mount installation with pre-attached flexible supply lines, it simplifies setup. This combination delivers both functionality and style to any bathroom.

26 3601

Single-lever Shower / Bath Combination

The SQUARE 26 4601 single-lever rain-shower combination. This set features a solid brass construction and includes a square overhead shower that mimics gentle rain, providing even water distribution for a relaxing, immersive bathing experience. The large overhead shower covers your entire body, while the hand shower with a flexible hose provides a targeted water flow for easy rinsing and cleaning.

Both the overhead and hand showers ensure a powerful yet soothing shower experience. The single lever handle with a square design allows for precise control over the flow rate and temperature. Backed by a premium ceramic disc cartridge with a lifespan of 500,000 cycles, this shower set is built to last.

Its wall-mount design and pre-attached flexible supply lines make installation simple, bringing the ultimate showering experience to your bathroom.

26 4601

Single-lever Rain-shower Combination

The SQUARE 26 4701B wall-mounted shower mixer. Crafted from solid brass, this mixer features a square wall-mount body with a built-in flow stopper for added convenience. The Neoperl aerator spout provides a soft, aerated stream to prevent splashing and includes a noise silencer. It also helps to reduce limescale and hard water issues while promoting water conservation.

The single lever handle with a square design provides seamless control over the flow rate and temperature. A diverter valve allows you to effortlessly switch between the spout and the hand shower. Backed by a premium ceramic disc cartridge that ensures 500,000 cycles of durability, this mixer is made from high-quality brass to ensure long-lasting reliability.

Its wall-mount design is suitable for double-hole installation and comes with pre-attached flexible supply lines for straightforward and efficient setup.
