Reddot award

Tang Xiaoping is a senior bathroom product designer with more than 20 years of professional experience in sanitary ware design and R&D. He served as R&D Director and Design Director at AMMONS Bathroom, leading core product design and innovation.

He focuses on the design of faucets, showers, bathroom hardware and smart sanitary products, integrating functional innovation, aesthetic design and practical craftsmanship. Under his leadership, the team won many top international and domestic awards, including the Red Dot Design Award, iF Design Award, China Red Star Design Award and Kapok Design Award. He has developed hundreds of national patents for appearance, utility model and invention. He has long been committed to promoting the upgrading of China's sanitary ware industry from manufacturing to creation, and has achieved outstanding performance in product innovation, user experience optimization and sustainable design.

SWAN

by Tang Xiao Ping

Water, inherently formless, gains its spirit from the vessel that carries it. This collection of gold bathroom fixtures by EMPOLO is more than just hardware; it is a profound tribute to "fluid aesthetics." We seek to break the coldness of industrial products by capturing the most elegant silhouettes in nature, turning the daily ritual of washing into a dialogue with art.

The swan is the pinnacle of linear aesthetics in the natural world. While observing swans on water, the designer captured that momentary arc: the elegant long neck, the unfurled wings, and the tranquility of floating.

The Beauty of Curves: The spout mimics the graceful curve of a swan's neck. Rising from the base, it carves a perfect mathematical parabola in space.

Power and Tenderness: The side handle design is inspired by a swan's tucked wing—lines that are sharp yet gentle to the touch.

SWAN

by Tang Xiao Ping

The SWAN 69 1101 single lever basin mixer is both elegant and durable. Its solid brass cylindrical body ensures reliability, and the Neoperl aerator delivers a soft, aerated stream that reduces noise and limescale.

The broad, sword-shaped single lever handle allows precise control of the water's flow and temperature.

With an Emporo ceramic cartridge built for 500,000 cycles, it guarantees long-lasting performance.

Designed for single-hole installation, it comes with pre-attached flexible supply lines to simplify setup.

69 1101G

Single-lever Basin Mixer

The SWAN 69 1102 single lever high basin mixer combines sophistication with functionality. Crafted from premium brass, it features a sleek, cylindrical body and a broad, sword-styled handle that allows for precise control of the water's flow and temperature.

The Neoperl aerator provides a soft, aerated stream that reduces noise, limescale and water usage. It is equipped with a durable Empolo ceramic cartridge rated for 500,000 cycles to ensure long-lasting reliability.

With pre-attached flexible supply lines, it is deck-mounted for simplified installation in single-hole setups.

69 1102G

Single-lever High Basin Mixer

The SWAN 69 1702 wall-mounted basin mixer. It features a solid brass, round body for durability. The Neoperl aerator provides a soft, aerated stream that prevents splashing and noise while reducing limescale, and the mixer is water-efficient.

The circular single lever handle allows easy control of the water flow and temperature. It uses an EMPOLO Select ceramic disc cartridge with a lifespan of up to 500,000 cycles. Designed for wall-mounted installation with concealed pipework, it includes flexible supply accessories for straightforward installation. It is ideal for both residential and commercial settings.

69 1702G

Wall-mounted Basin Mixer

The SWAN 69 1704 wall-mounted basin mixer is a masterpiece of elegance and functionality. With its solid brass cylindrical body and dual broadsword-styled levers, it provides precise control over the flow rate and temperature.

The Neoperl aerator in the spout creates a soft aerated stream, reducing noise, limescale and water waste. The Empolo ceramic cartridge is designed to last for 500,000 cycles.

Designed for concealed wall mounting, it adds durability and a sleek look to your space.

69 1704G

Wall-mounted Basin Mixer

The SWAN 69 4701 wall-mounted shower mixer.

Crafted from solid brass, this mixer features a square wall-mount body with a built-in flow stopper for added convenience.

The Neoperl aerator spout provides a soft, aerated stream to prevent splashing and includes a noise silencer. It also helps to reduce limescale and hard water issues while promoting water conservation.

The single lever handle with a square design provides seamless control over the flow rate and temperature. A diverter valve allows you to effortlessly switch between the spout and the hand shower. Backed by a premium ceramic disc cartridge that ensures 500,000 cycles of durability, this mixer is made from high-quality brass to ensure long-lasting reliability.

Its wall-mount design is suitable for double-hole installation and comes with pre-attached flexible supply lines for straightforward and efficient setup.
